AESIRX
Single Sign On (SSO)

AESIRX

Single Sign On (SSOaaS)

Open Source Web2 + Web3 Single Sign On for any JS-based site or app as a Service and connected to the ground-breaking **AesirX Analytics** and **AesirX Business Intelligence**, **AesirX Single Sign On** is the key to *Cross-Site tracking*, *retargeting*, and *pretargeting*.

AesirX SSO is a crucial cornerstone in any digital strategy that aims to get back to having a functional MarTech stack that can convert digital marketing budget to sales, as the world goes **Privacy First** and **Cookieless**, it is a requirement to move Consent to the User (*decentralized consent*).

AesirX SSO integrates with all AesirX Solutions and offers functionality like Abandoned Cart, Mailflow Triggers, etc., based on 1st-party data and privacy by design.
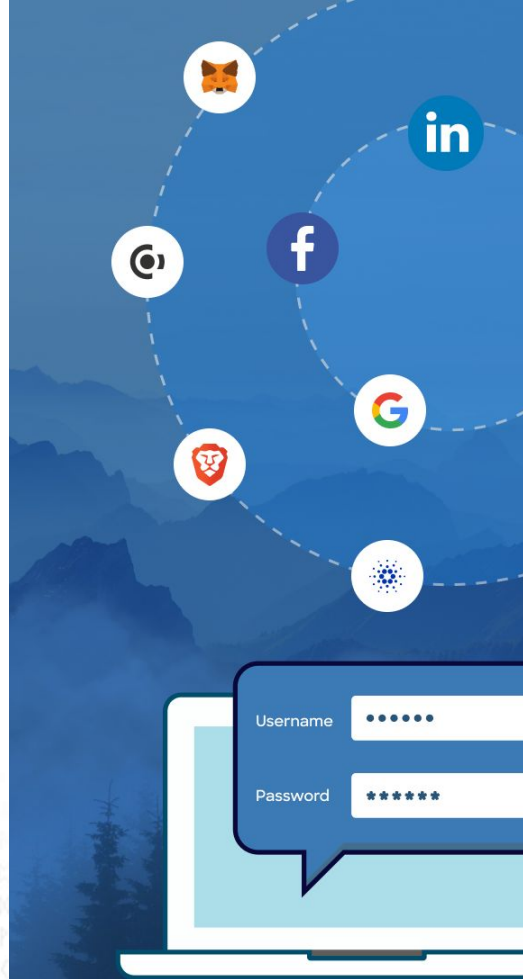

AESIR⟩

Single Sign On as a Service

AesirX SSO is our Open Source 1st-party based enterprise-level Single Sign On as a Service (SSOaaS) platform. It decentralizes consent to the user, removing the need for cookies and cookie consent while re-establishing a full data foundation as neither the data collection nor user tracking is based on cookies.

AesirX Single Sign On Enterprise edition enables the collection of behavioral data from the User, Staff, and Learning Experiences in real-time - utilizing the collected data for prediction or personalization to further improve the experience.

We provide the SSOaaS for free, with reasonable limitations, and also offer 4 tiers that are self-hosted/managed from only $49 per month as well as a fully hosted and managed Enterprise edition.

AESIR SSO
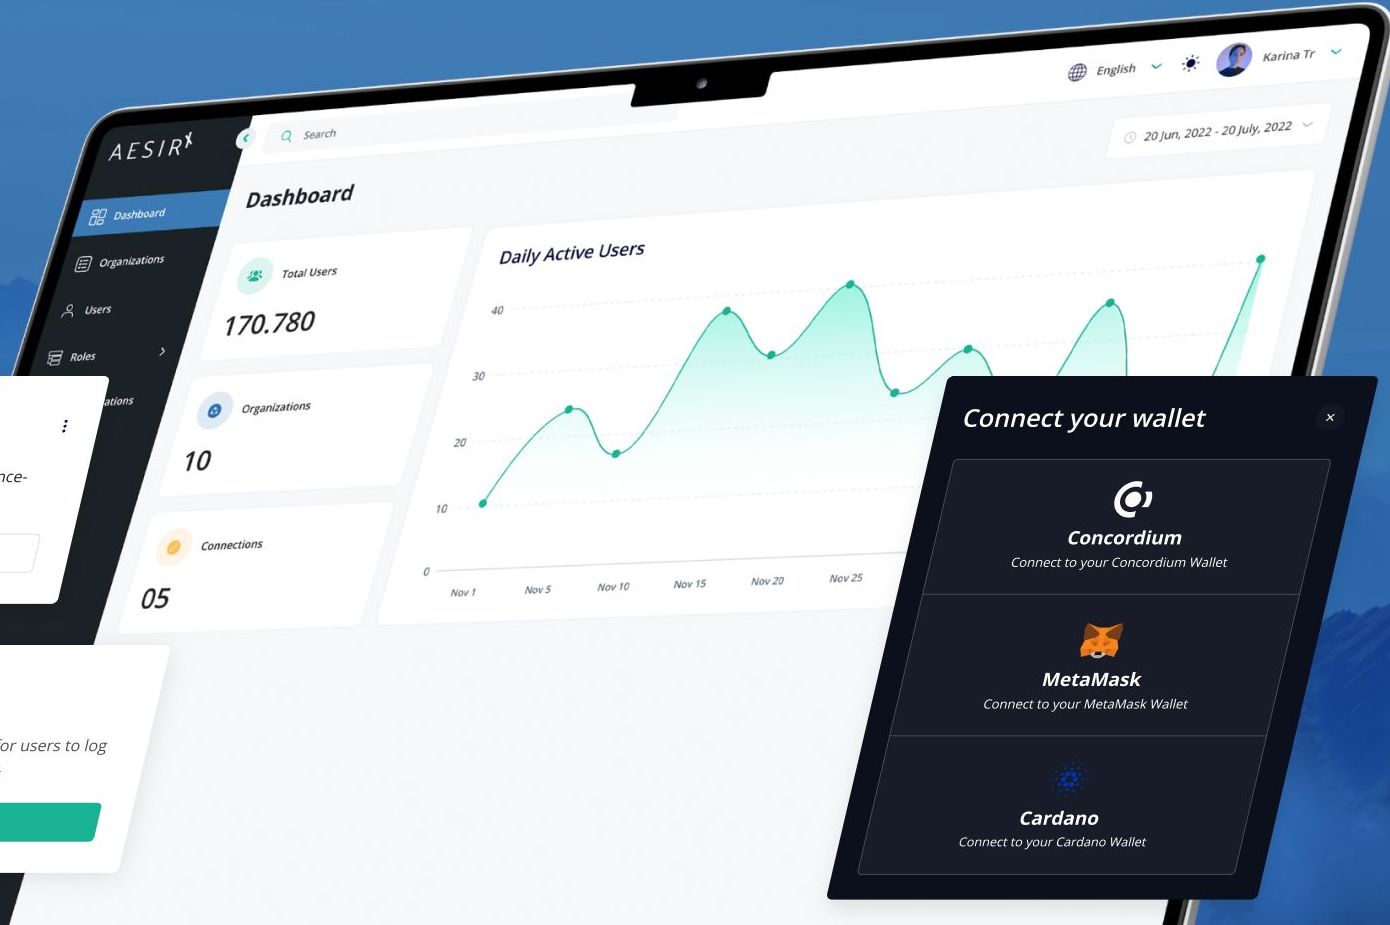

As the world goes Privacy First and Cookieless,
AesirX SSO moves data consent to the user.
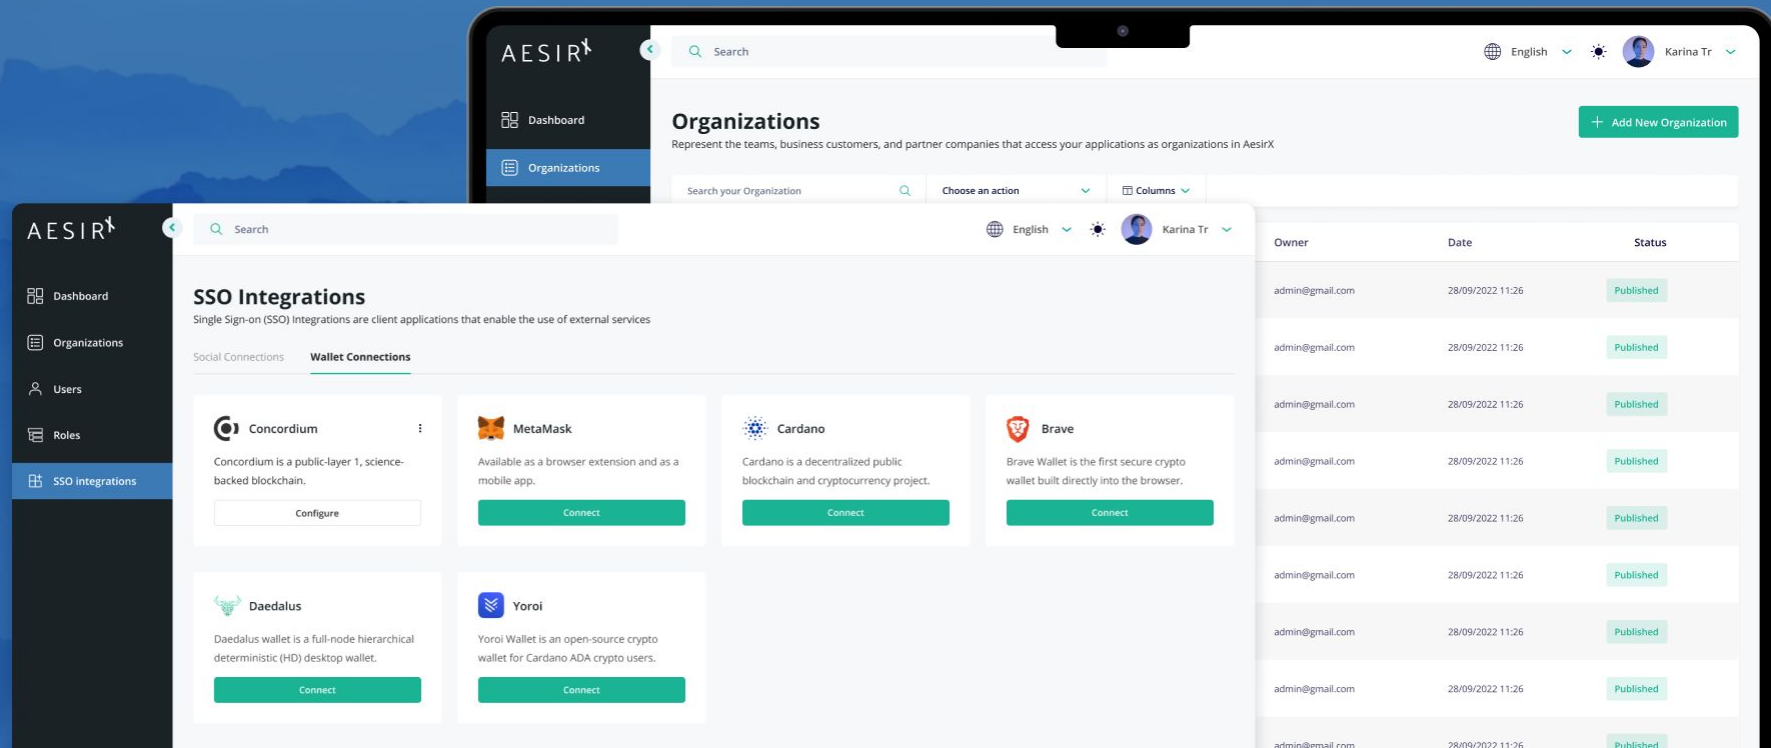

Benefits

Web3 authentication providers
Your users can connect their wallets to provide Web3 based-authentication using different networks (*Cross-Site Analytics*).

Web2 authentication providers
Integrate with common social networking and cloud providers to authenticate your users based on AesirX roles.

Dynamically scale
Designed for dynamic scale and custom behavioral tracking as well as full integration to AesirX Solution Series.

Compliant custom solutions
Fully GDPR compliant, privacy by design, local and global compliant data storage options (*Enterprise edition*).

End to end service
Delivered as a fully managed Platform as a Service (PaaS), including hosting, management, service, and 24/7 Support (*Enterprise edition*).
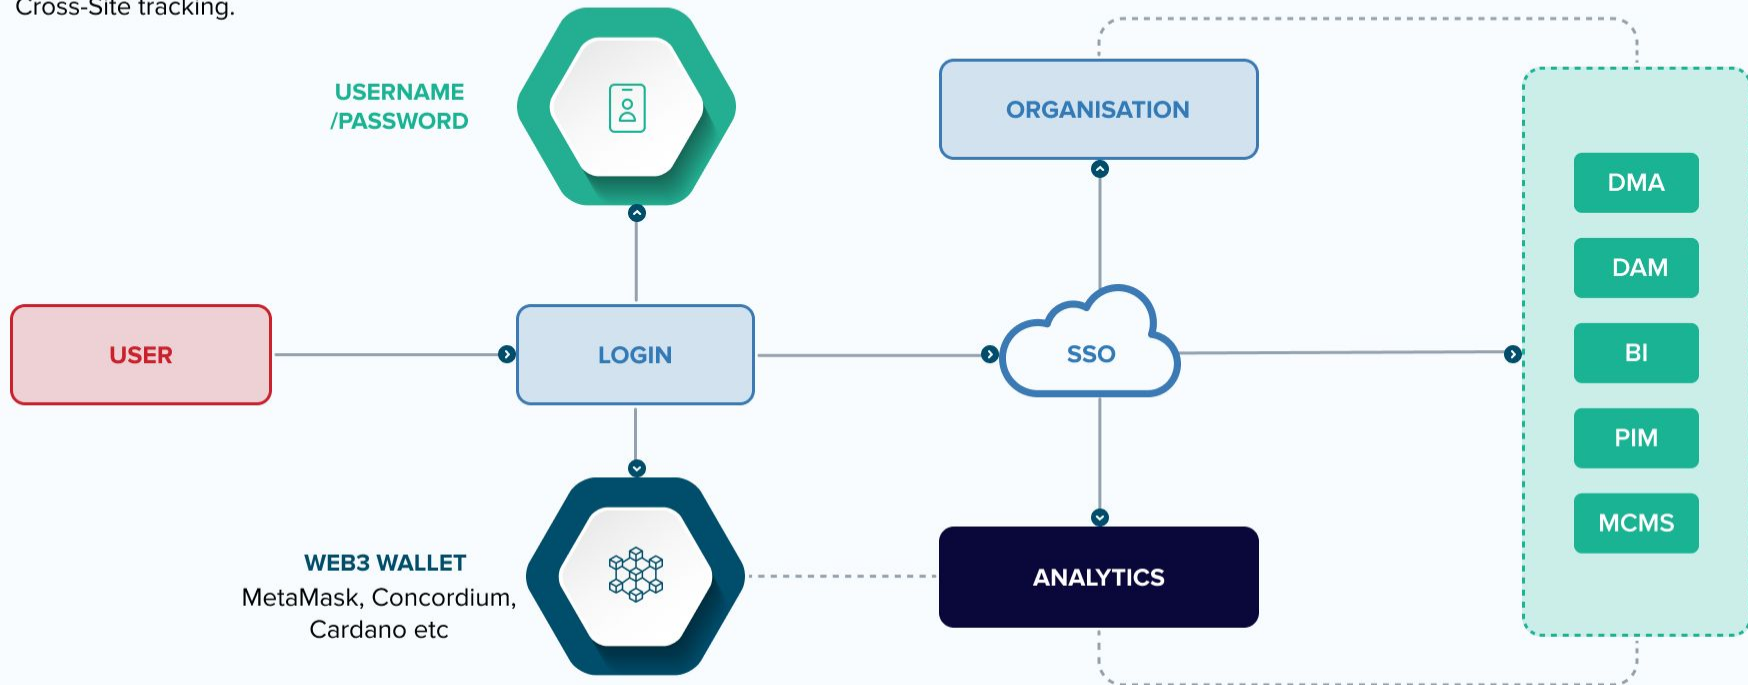

Multiple user roles
Your organization can authenticate to multiple JS-based apps / sites using different permission levels based on roles.

OPEN SOURCE

AesirX SSO is a modern single sign on solution that supports both Web2 and Web3 as well as a key element in the foundation for legal Cross-Site tracking.

AESIRX

AesirX Solution Series

AesirX SSO is part of the AesirX Solution Series.

In the past decade, we have invented and developed AesirX - the world's first actionable 1st-party data Digital Experience Platform that is legally compliant and privacy-first. AesirX enables our customers and our partners' customer journeys in the most meaningful way by utilizing qualitative 1st-party behavioral data to personalize each Customer, Staff, or Learning Experience.

AesirX SSO fully integrates with the entire AesirX solutions family and ensures the legal and compliant collection, storage, and utilization of data based on privacy-by-design, and developed utilizing Concordium blockchain zero Knowledge ID technology.

AESIR

The evolution of Aesir is Aesir + ᛉ (the Norse symbol for Necessity)
"Needed in order to achieve a particular result""
